

Atmos® Adjuvant

Atmos is a high- concentrate methylated soy oil, which is designed to maximize the efficacy of post- emergent herbicides, especially under adverse environmental conditions. As a high- concentrate product, rates are reduced compared to other methylated seed oils. The improved performance and reduced rates with Atmos come from a patented proprietary formulation that incorporates a patented proprietary technology.

APPLICATION RATE: 1 TO 8 PINTS PER 100 GALLONS

INGREDIENTS:

92% Methylated soybean oil, sorbitan fatty acid esters, high fructose corn syrup

8% Constituents ineffective as adjuvants
