

Mystic® Blue and Black Lake Dyes

Mystic Lake Dyes transform the pale, dirty or off-color water in lakes, ponds or water hazards into a natural-appearing healthy blue or black color. Mystic Lake Dyes may be used to provide blue or black color for ornamental lakes, ponds, fountains, water hazards and other contained water bodies. They may be applied to areas used for irrigation but not in water used for direct human consumption.

APPLICATION RATE:

4 to 6 fluid ounces per 1-acre foot

INGREDIENTS:

100% Blend of Colorants

FEATURES & BENEFITS

- Highly concentrated formulation features low use rates for greater flexibility
- Water may be used for swimming and recreational sports
- Does not harm fish, waterfowl or animals with normal use

Mystic® Lake Black Dye Applied to a Pond
