

Aqua-King Plus[®] Adjuvant

Aqua-King Plus Adjuvant contains nonionic surfactants to promote fast spreading, uniform distribution and absorption of products on aquatic vegetation. It also includes buffering agents to lower spray solution pH, which may reduce hydrolysis and improve performance potential of certain products. Aqua-King Plus Adjuvant is primarily for use with aquatic herbicides for wetland vegetation, rights-of-way, ditch banks, shorelines, and non-crop areas.

APPLICATION RATE

RATE: 1 to 4 pints per 100 gallons

BACKPACK RATE: 0.5 oz per gallon

INGREDIENTS

95% Nonylphenol polyethylene glycol ether, free fatty acids, organic phosphatic acids, dimethylpolysiloxane

5% Constituents ineffective as spray adjuvant

FEATURES & BENEFITS

- Nonionic surfactant technology reduces surface tension leading to larger droplets
- Buffering agents lower spray solution pH to help reduce alkaline hydrolysis
- Helps promote increased pesticide absorption and efficacy
