

Droplex[®] Xtra

Droplex Xtra is a powerful combination of Droplex adjuvant to reduce small droplets and Gulfstream surfactant technology to enhance droplet spreading. Conveniently packaged in a premix, Droplex Xtra significantly increases the number of droplets reaching the target and coverage of droplets, leading to more pesticide on the target, which can enable better performance. Droplex Xtra labeled for use with herbicides, insecticides, fungicides, and nutrients to improve coverage and uptake.

APPLICATION RATE

RATE: 16 to 32 fluid ounces per acre
BACKPACK RATE: 0.5 oz per gallon

INGREDIENTS

95% modified vegetable oil, alkyl phenol ethoxylate vegetable oil
 5% constituents ineffective as spray adjuvant

FEATURES & BENEFITS

- Significantly increases the number of droplets reaching the target, by reducing small droplets
- Provides greater control by enhancing droplet coverage on the target
- Can potentially lower pesticide or fertilizer use rates, due to very effective application
- Packaged in a convenient pre-mix to minimize mixing time and ensure the proper balance of ingredients
