

Gravity[®] S Iron EDDHA Soluble Fertilizer

Gravity S Iron EDDHA is a highly effective plant nutrient supplement designed to address iron deficiencies in alkaline and calcareous soils. It is specifically formulated for use on various horticultural and ornamental crops that require additional iron supplementation. The application of Gravity S Iron EDDHA can be done directly to the soil as a powder or spray, as well as through drip or injection systems. Additionally, it can be applied through foliar application using conventional, low volume, or aerial sprayers. With its comprehensive benefits and versatile application methods, Gravity S Iron EDDHA is an invaluable tool for enhancing plant health and productivity in iron-deficient soils.

APPLICATION RATE

Drench soil thoroughly @ 1 – 2 LB/100 gallons of water
Top Dress: 2 oz (2 tablespoons) per 1000 sq ft – or 5lbs p
(When applied as a powder, must water in within 4 hours)

INGREDIENTS

6% Iron (Fe)

FEATURES & BENEFITS
