

SECTION 1: IDENTIFICATION	
Product Name:	AirStick
Chemical Description:	Nonionic surfactant
Recommended Uses:	Adjuvant – See product label for full directions for use.
Restrictions for Use:	See product label for any restrictions on use.
Manufactured For: Heritage Landscape Supply Group 7440 TX-121 McKinney, TX 75070	MEDICAL EMERGENCY TELEPHONE NUMBER: 1-866-767-5042 (24hrs) Non-Emergency Business Inquiries: 1-855-565-1507 Mon – Fri 8am – 5pm (Central Standard Time)
FOR EMERGENCY, SPILL, LEAK, FIRE, EXPOSURE, OR ACCIDENT, CALL: CHEMTREC 1-800-424-9300 (24 hours)	

SECTION 2: HAZARDS IDENTIFICATION			
EMERGENCY OVERVIEW: Tan clear to slightly hazy liquid with a mild odor. Flammable liquid. May be harmful if inhaled.			
POTENTIAL HEALTH EFFECTS:			
Eyes: Causes serious eye irritation			
Skin: May be harmful in contact with skin			
Inhalation: May be harmful if inhaled			
Ingestion: May be harmful if swallowed.			
Carcinogenicity	NTP: Not listed	IARC: Not listed	OSHA: Not listed
OSHA HCS 2012 CLASSIFICATION: Flammable Liquid Category 3; Specific Target Organ Toxicant – Repeated Exposure Category 2			
SIGNAL WORD: WARNING			
HAZARD STATEMENTS:			
Flammable liquid and vapor.			
May cause damage to central nervous system, kidneys and/or liver through prolonged or repeated exposure.			
Percent of product with unknown toxicity: 0%			
PRECAUTIONARY STATEMENTS:			
Prevention:	If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Avoid breathing fumes, mist, vapors, or spray. Wash hands, face, and other affected areas thoroughly after handling. Do not eat, drink, or smoke when using this product. Use only outdoors or in a well ventilated area. Wear protective gloves / protective clothing / eye protection / face protection. Avoid release to the environment.		
Response:	IF SWALLOWED: Call a POISON CENTER or doctor / physician if you feel unwell. Rinse mouth. IF ON SKIN: Get medical advice or attention. Call a POISON CENTER or doctor / physician if you feel unwell. Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water. If skin irritation occurs: get medical advice or attention. IF INHALED: Call a POISON CENTER / doctor / seek medical attention if you feel unwell. Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Get medical advice / attention. Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.		

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS		
Ingredient	% (wt)	CAS Reg. #
Proprietary blend of polyterpene oligomer, paraffinic oil, and alcohol ethoxylate	100%	Mixture

SECTION 4: FIRST AID MEASURES	
Inhalation:	Remove person to fresh air and keep comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible. Call a poison control center or doctor for treatment advice.
Ingestion:	Call a poison control center or doctor immediately for treatment advice. Have the person rinse mouth and sip a glass of water if able to do so. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
Eyes:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice if symptoms persist.
Skin:	Remove contaminated clothing and wash before reuse. Rinse skin with plenty of water for 15-20 minutes. If skin irritation occurs, seek medical attention. Call a poison control center or doctor for treatment advice.

SECTION 5: FIRE FIGHTING MEASURES	
Suitable Extinguishing Media:	Use water spray, dry chemical, foam, or carbon dioxide (CO ₂).
Special Fire Fighting Procedures:	Fight fire from a safe distance and protected location. Fight fire upwind to avoid hazardous vapors and decomposing products. Heat may build pressure and rupture closed containers, spreading fire and increasing the risk of injury. Empty containers may contain residue product and can be dangerous. Use water spray/fog for cooling containers and firefighters. Notify proper authorities if liquid material enters the sewer or public waters.
FIRE FIGHTING EQUIPMENT:	As with any fire, wear self-contained breathing apparatus pressure demand, (MSHA/NIOSH approved or equivalent) and full protective gear.

SECTION 6: ACCIDENTAL RELEASE MEASURES	
SPILL AND LEAK RESPONSE:	Uncontrolled releases should be responded to by trained personnel using pre-planned procedures. Proper protective equipment should be used. In case of a spill, clear the affected area, protect people, and respond with trained personnel. PERSONAL PROTECTIVE EQUIPMENT: The proper personal protective equipment for incidental releases (such as 1 liter of product released in a well-ventilated area), use impermeable gloves, goggles, face shield, and appropriate body protection. In the event of a large release, use impermeable gloves, chemically resistant suit and boots, and hard hat. Self-Contained Breathing Apparatus or respirator may be required where engineering controls are not adequate or conditions for potential exposure exist. When respirators are required, select NIOSH/MSHA approved based on actual or potential airborne concentrations in accordance with the latest OSHA and/or ANSI recommendations.
Environmental Precautions:	Stop spill at source. Construct temporary dikes of dirt, sand, or appropriate readily available material to prevent spreading of material. Close cap or valves and/or block or plug hole in leaking container and transfer to another container. Keep from entering storm sewers and ditches which lead to waterways, and if necessary, call the local fire or police department for immediate assistance.
Methods for Containment and Cleanup:	Absorb spilled liquid with polypads or other absorbent materials. Clean up with non-combustible absorbent (such as sand, soil, and so on). Shovel up and place all spill residue in suitable containers. Dispose of at an appropriate waste disposal facility according to current applicable laws and regulations and product characteristics at time of disposal.

SECTION 7: HANDLING AND STORAGE

Handling: Follow all SDS / label precautions when using this product. Do not reuse the container.
Storage: Store between 40°F and 120°F. Isolate from strong oxidants or strong alkaline materials.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Respiratory Protection: For most conditions, no respiratory protection should be needed; however, use NIOSH/MSHA approved organic vapor respirator if vapor or mist is present.

Engineering Controls: Facilities storing or utilizing this material should be equipped with an eyewash station and safety shower.
 Ventilation System: A system of local and / or general exhaust may be necessary to keep employee exposures below the Airborne Exposure Limits. Local exhaust ventilation is generally preferred because it can control the emission of the contaminant at its source, preventing dispersion of it into the general work area. Please refer to the ACGIH document, Industrial Ventilation, A Manual of Recommended Practices, most recent edition, for details.

Protective Gloves: Use impervious gloves such as neoprene.
Eye Protection: Wear OSHA standard chemical splash goggles.
Other Protective Clothing or Equipment: For brief contact, no precautions other than clean body-covering clothing should be need.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Physical State:	Clear, yellow to amber Liquid	Specific Gravity (H₂O=1):	0.88- 0.92 (typical)
Vapor Pressure (mm Hg):	Not determined	Density (lbs/gallon):	7.82 – 7.85 lbs/gallons
Vapor Density (Air=1):	Not determined	Freezing Point:	Not determined
Solubility in Water (wt %):	Dispersible	Boiling Point/Range:	Not determined
Viscosity:	5 to 10 centistokes at 77°F.	pH :	Non-aqueous
Odor:	Terpene	Flash Point:	>130°C

SECTION 10: STABILITY AND REACTIVITY

Chemical Stability: Stable at ambient temperatures and atmospheric pressure.
Conditions to Avoid: Strong oxidizing agents. Isolate from open flames and heat. Keep material away from aluminum metal, oleum, and nitroform.
Hazardous Decomposition Products: Combustion may yield carbon monoxide, carbon dioxide, and other hazardous gases.
Hazardous Polymerization: Will not occur.

SECTION 11: TOXICOLOGICAL INFORMATION

ACUTE: based on product components. Oral LD50 Rat > 2,000 mg/kg Dermal LD50 Rabbit > 2,000 mg/kg
Eye – may cause irritation to eyes including redness, tearing, blurred vision and discomfort.
Skin – may cause irritation to skin. Absorption through skin increases exposure. Prolonged exposure may cause more severe irritation such as local redness and swelling.
Inhalation – may irritate the respiratory tract and cause discomfort to nose and throat.
Ingestion – swallowing can cause abdominal irritation, nausea, vomiting and diarrhea. Do not taste or swallow product.
Chronic exposure: no data available
Aggravation of pre-existing conditions: no data available
Specific Target Organ Toxicity – Single Exposure: no data available
Specific Target Organ Toxicity – Repeated Exposure: no data available
Germ Cell Mutagenicity: no data available
Reproductive Toxicity: no data available
Aspiration Hazard: no data available

SECTION 12: ECOLOGICAL INFORMATION

ENVIRONMENTAL DATA: no data available
ECOTOXICOLOGICAL DATA: no data available

SECTION 13: DISPOSAL CONSIDERATIONS

DISPOSAL METHOD: Do not contaminate water, food, or feed by disposal.
PRODUCT DISPOSAL: Disposal of contents / container must be in compliance with local, state, and federal laws and regulations (contact local or state environmental agency for specific rules).
EMPTY CONTAINER: Empty containers must be handled properly due to product residue.

SECTION 14: TRANSPORT INFORMATION

SHIPPING DESCRIPTION Not regulated for ground transportation by US DOT.

SECTION 15: REGULATORY INFORMATION

TSCA Inventory: All components are listed on the TSCA inventory.

SARA Title III Information:

Section 311/312 – Hazard Categories -Acute

Section 313 – None

Section 302 / 304 – Not listed

United States TSCA Inventory (TSCA) All components of this product are in compliance with the inventory listing requirements of the U.S. Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

CALIFORNIA SAFE DRINKING WATER & TOXIC ENFORCEMENT ACT (PROPOSITION 65) – This product contains no chemicals known to the state of California to cause cancer or reproductive toxicity.

TRACE ELEMENTS: Trace ingredients (if any) are present in < 1% concentration (< 0.1% for potential carcinogens, reproductive toxins, respiratory tract mutagens, and sensitizers). None of the trace ingredients contribute a significant additional hazard at the concentrations that may be present in this product. All pertinent hazard information has been provided in this document, per the requirements of the Federal Occupational Safety and Health Administration Standard (29 CFR 1910.1200), US State equivalents, and Canadian Hazardous Material Identification System Standard (CPR 4).

SECTION 16: OTHER

Disclaimer: The information presented herein is based on available data from reliable sources and is correct to the best of Heritage Landscape Supply Group knowledge. Heritage Landscape Supply Group makes no warranty, express nor implied, regarding the accuracy of the data or the results obtained from the use of this product. Nothing herein may be construed as recommending any practice or any product in violation of any law or regulations. The user is solely responsible for determining the suitability of any material or product for a specific purpose and for adopting any appropriate safety precautions. We disclaim all liability for injury or damage stemming from any improper use of the material or product described herein.
