

Gravity[®] L Camino Liquid Fertilizer

Gravity L Camino is a revolutionary oilseed extract that serves as a renewable source of plant nutrition. Through a unique fermentation process, the essential amino acids are extracted, resulting in a highly effective organic fertilizer. What sets Gravity L Camino apart is its low salt index, which allows for higher application rates compared to other organic fertilizers. This means you can provide your seedlings and young plants with optimal nutrition without the risk of burn or damage. It's suitable for various applications including golf courses, lawn care, ornamental nursery/greenhouse, and sports turf. By stimulating early growth and fostering strong root systems, it effectively promotes plant development. Additionally, in cases where there may be nutrient deficiencies, this product ensures timely and precise supplementation.
