FLAG LIGHTING 101:
Flags move. Your light needs to cover that movement. Cross lighting keeps it consistent from every angle. We recommend BL115 for smaller flags, GL Series for hardscape installs, and BL400-bt for taller flags that need higher output.

QUALIFYING LAMPS INCLUDE: MR16 – AOLBTALLYMR16, BIPIN – AOLBTALLYG4, PAR36 – AOLBTALLYPAR36, A19 – AOLBTALLYA19
Promotion runs May 25th – June 19th, 2026. Promotion only valid at Heritage Landscape Supply branches in Florida. To qualify for the America 250 flag, the order must be on one sales order. Limit 100 bt Ally Lamps. Limit one flag per company. Flags will be shipped to customer after promotion period ends.
